

File Hosting

File Hosting

If you require IPT to host files for your email please adhere to the following requirements.

- Files must be in lower case, no capital letters are allowed.
- Files must not contain special characters; the file should be in the range of [a-z] [0-9].
- Files must not contain any spaces; these must either be removed or replaced with an underscore.
- Any single file that exceeds 30 Kilobytes must not be present (these files need to be compressed down to an acceptable limit, either by the client or internally).
- Apart from standard web based files (e.g. jpg, gif, html, swf...etc), no other files must be uploaded (e.g. asp, xls, cfm).
